

14th Charles Rodolphe Brupbacher Symposium
in conjunction with the
Charles Rodolphe Brupbacher Prize
for Cancer Research 2019

January 30 – February 1, 2019
Zurich, Switzerland

Breakthroughs in Cancer Research and Therapy

Symposium Organizers:

Nancy E. Hynes (Basel) and Lukas Sommer (Zurich)

Cancer Cell Heterogeneity

Andreas Trumpp, Heidelberg
Alain Puisieux, Lyon
Nicola Aceto, Basel

Big Data in Epidemiology and Cancer Research

Richard J. Gilbertson, Cambridge, UK
I. R. Tomlinson, Birmingham, UK
Serena Nik-Zainal, Cambridge, UK

Signaling Pathways in Response & Resistance to Cancer Therapy

Mike Hall, Basel
Daniel S. Peeper, Amsterdam
Gerhard Christofori, Basel

Tumour Microenvironment and Metastasis

Karin de Visser, Amsterdam
Johanna Joyce, Lausanne
Paul Frenette, New York, NY

Cancer Metabolism/Autophagy

Sean Morrison, Dallas, TX
Pierre Close, Liège
Matthew Vander Heiden, Cambridge, MA

Genetics and Epigenetics

Peter Lichter, Heidelberg
Jean-Philippe Theurillat, Bellinzona
Nada Jabado, Montreal
G. Steven Bova, Tampere

Breakthroughs in Cancer Therapy

Antoni Ribas, Los Angeles, CA
Peter Hillmen, Leeds
Andrew W. Roberts, Melbourne

Breakthroughs in Cancer Biology

Bernd Bodenmiller, Zurich
Nicola Valeri, London

**Participants are invited to register and submit poster abstracts between
September 1 - December 1, 2018**

Selected abstracts will be nominated for Young Investigator Awards.

For information, registration (free of charge) and abstract submission please visit:

www.brupbacher-foundation.org

Symposium Location:

ETH Swiss Federal Institute of Technology,
Rämistrasse 101, AudiMax (HG F 30)

University of
Zurich^{UZH}
